Clean Water Fund - Water Quality Division**Department Summary**

The Clean Water Program works to ensure NPDES Permit compliance through the development of and implementation of regulations and programs which contribute to the protection of surface and ground water for beneficial uses: wildlife habitat, fish rearing, optimal water supply, and recreational uses. The department monitors the compliance of mandated activities of multiple County departments.

Clean Water Fund - Water Quality Division

Program Summary

Capital Improvement

Stormwater capital Improvement activities include the planning, designing, and constructing stormwater features to capture and remove pollutants. The Clean Water Program partners with other entities to optimize resources; the program has and will continue contracting the Public Works Engineering Program, for staff to provide construction services. This includes assisting in stormwater basin planning to minimize water quality concerns.

Clean Water Fund - Water Quality Division

Program Summary

Clean Water Fund Administration

Water Resources staff is responsible for implementation and oversight of Clean Water Program actions and services that ensure Clark County's compliance with the federal Clean Water Act, the NPDES permit, and the Washington State Waste Discharge permit. This includes providing financial accountability for Clean Water Program work done by Public Works and by other county departments.

Clean Water Fund - Water Quality Division

Program Summary

Public Education & Involvement

Public education and outreach program is responsible for increasing the community's awareness of how their everyday actions affect water quality. Activities include maintaining a Watershed Stewards Program; educating small acreage landowners; making presentations in the schools; and partnering to expand the student water quality monitoring program in unincorporated Clark County. Responsibilities also include support to the Clean Water Commission and education relating to the Clean Water Program fee billings.

In addition, technical assistance is part of education. Staff educates businesses about proper implementation of best management practices for water quality.

Clean Water Fund - Water Quality Division

Program Summary

Regulation/Enforcement

The Department of Community Development (the Development Services, Building, and Code Enforcement Divisions) is contracted by the Clean Water Program to implement and enforce development regulations to minimize water pollution (ensure construction projects have runoff control for pollutants and discharge rates).

Deputy Operations

Department Summary

This department is comprised of two deputies from the Sheriff's Office who are responsible for enforcing traffic ordinances relating to commercial vehicles. Activities include the enforcement of ordinances relating to house moves and over legal vehicles, as well as the conduction of Commercial Vehicle Safety Alliance (CVSA) inspections on commercial vehicles using county roadways. Other services provided through this department include investigation of abandoned vehicles and illegal dumping activities along county roadways. Prior to 2003-2004, these two positions were fully funded by the County Road Fund and the employees reported directly to Public Works Operations Manager. Beginning in the 2003/2004 budget, a diversion of Road Fund to General Fund was increased and these employees began reporting to the Sheriff.

Design & Engineering

Department Summary

The Design & Engineering Division is responsible for the County's transportation infrastructure to include roadways, bridges and alternative forms of transportation. It is managed by the County Engineer who is responsible for planning, constructing and maintaining the infrastructure. The division consists of three primary program areas including Administration, the Capital Improvement Program (CIP) and the Transportation Program. Administration includes the office of the County Engineer and service payments to non-Public Works programs. Transportation includes Concurrency Management, Transportation Programming and Transportation Systems Management. The CIP is responsible for construction of new roadways and incorporates the Design, Survey, Real Property Services and Construction Management Sections.

Design & Engineering

Program Summary

Capital Improvement Program (CIP)

The Engineering/Capital Improvement Program is responsible for implementing construction of County roads, bridges, walkways, bike lanes, water resources, and parks projects. Most services are internal to Clark County Public Works and include: Design; Survey; Real Property Services; Project Management; Construction Management; Environmental Permitting; Administration. The Engineering Program works closely with Transportation Programming to ensure that projects proposed in the Six-Year Transportation Improvement Program (TIP) and Annual Construction Program (ACP) are completed according to standards and cost effectively.

Design & Engineering

Program Summary

Design & Engineering Administration

The Administration Program consists of expenses directly related to the County Engineer. The County Engineer is a mandated county official responsible for directing, managing and certifying public engineering projects. Financial transfers to other county funds may also be budgeted here. Examples of these transfers include bonded debt repayments and reimbursements to the County Capital Acquisition Fund.

78th St. Fuel Facility Upgrade 5091-551-03

New underground Fuel Tanks and Fuel Dispensing Facility Upgrades
Estimated Cost: 350,000
Funding Source: ER&R Fund 5091 (GDO Replacement Reserves)

This request would remove four (4) above ground fuel tanks and would be replaced with two (2) underground fuel storage tanks and upgrade fuel dispensing facility at the 78th Street Operations Center. Improvements include adding two underground tanks, removing four aboveground tanks, and upgrading the existing fuel dispensing facility.

Equipment Services

Department Summary

The Equipment Services Department is responsible for the management and maintenance of the County's fleet of vehicles and equipment. Items included in the fleet range from Sheriff's patrol cars to road paving equipment; a variety of hand tools are included as well. This department purchases replacements for equipment which has reached the end of its useful life and acquires new equipment as directed by its customer departments. Maintenance and capital replacements are funded through equipment rental rates charged to user departments.

Equipment Services

Program Summary

Equipment Repair

Equipment Repair maintains the mechanical and cosmetic condition of the county's 550+ pieces of fleet and passenger vehicles and road equipment, as well as an additional 100+ units belonging to eight other public agencies. These range from Sheriff patrol vehicles to pick-up trucks to backhoes and other pieces of heavy equipment. Approximately 140 pieces of auxiliary equipment such as sanders, snow plows, compressors, pumps, and generators are also maintained through this program. Activities include scheduled preventive maintenance, mechanical breakdown repair, and fabrication of equipment to meet a specific use or application.

Equipment Services

Program Summary

Fleet Management

This program accounts for and controls the County's fleet of vehicles and equipment. A ten-year fleet plan is updated yearly to meet the changing needs of user departments. The Fleet Management program plans unit purchases, accepts delivery of units and assigns them to user departments and disposes of equipment once it has reached the end of its life cycle. This program includes the acquisition of new and replacement items for the County's fleet of vehicles and equipment. Replacements are financed through accumulated rental revenues while new acquisitions require funding from the user departments. This program develops equipment rental rates yearly and arranges for short-term rentals of specialized equipment as needed from outside providers and arranges for repair/maintenance activities and fuel needs.

Equipment Services

Program Summary

Non-Replacement Capital Acquisitions

Design, specify, and purchase additional equipment justified by user departments through the budget process that meets new or changing maintenance application needs. This program is separate from the Capital Replacement program that is funded out of Equipment Services replacement reserves. Funding for additional equipment is submitted in the requesting departments' budgets.

Facility Operations - Public Works

Department Summary

This department consists of the county's Decant and Street Sweeping Recycling Facilities. Waste captured from catch basins and street sweepers is off-loaded here, drained, screened, and disposed in a variety of environmentally friendly ways. The Washington Department of Transportation, the Cities of Vancouver, Camas, Washougal and Battle Ground all partner with Clark County in this effort.

BUDGET ADJUSTMENTS:

Klineline Pond Lifeguard Prog 1032-633-01

In partnership with Clark County Public Works Grounds Division, we are proposing to request a full-time volunteer coordination staff person to better engage, recruit, train retain and recognize our volunteers. Being a joint city-county department, we are proposing a jointly funded position to strengthen the parks volunteer program.

\$35,000 0.00 \$0

1032-633-594760-Capital Outlay -Parks & Recreation

MPD Increase Request 1032-633-02

This request is for additional maintenance funding for newly constructed Neighborhood and Community parks within the unincorporated urban park system. In addition to the seventeen completed neighborhood and community parks, five new neighborhood parks and two sports field facilities will be completed within the 2011/2012 biennium. Maintenance funding is available from revenue obtained from the Greater Clark Parks Metropolitan Park District fund. This request includes ongoing funding to add one full time Parks Crew Chief, one full time Parks and Vegetation Specialist and three full time Grounds Maintenance Specialist positions.

Note: One Grounds Maintenance Specialist position and funding support will be transferred to the Vegetation Management program in 2011. This position will support all future ornamental herbicide applications within developed parks properties.

1032-633-576801-16' Rotary Mowing

\$1,574,810 4.50 \$0

MPD Operations 1032-330-01

The Public Information Officer did not come through in baseline, this is to restore this position accordingly. This package will also allow for payment to facilities for their services in the community parks. This will restore the budget to pay for the creation of trails in GCPD parks. The \$5,000,000 is to accommodate billings from Urban REET fund to pay for the construction of various parks.

\$7,133,922 0.00 \$0

1032-330-576801-16' Rotary Mowing

Volunteer Coordinator Position 1032-633-04

This is a request for funding and position approval to add a regular full time Volunteer Coordinator to manage and advance the newly created Parks Volunteer Program. This position will reside within the Metropolitan Parks District Parks program. The position will be ongoing.

1032-633-576801-16' Rotary Mowing

\$157,928 1.00 \$0

BUDGET ADJUSTMENTS TOTAL:

\$8,901,660 5.50 \$0

Parks & Recreation

Department Summary

In January 1997, the Clark County and City of Vancouver Parks and Recreation Departments consolidated into one department and now operate as a City department providing services to the County. The County's Park and Recreation programs remain the same. The Parks & Recreation Division is responsible for the strategic, short and long-range planning, acquisition, and development of the County's parks, green ways, trails, open spaces, and recreation facilities, and sponsoring regional recreation events. In 2005, the Metropolitan Parks District was approved and the program is in the process of developing 35 new parks.

Parks & Recreation

Program Summary

Planning, Acquisition and Design

This program develops and monitors standards for the County's mandated, essential, and discretionary park requirements; provides strategic, long range and short range planning; acquires property for subsequent park development; and designs and develops improvement and management plans for parks, open spaces, and trails. It also seeks alternative funding sources such as private/public partnerships, grants, donations, inter-agency agreements, and innovative revenue generation opportunities. Citizen input is sought for all major projects through public meetings, task forces, and committees.

Parks Operations

Department Summary

This department is responsible for the grounds equipment and facilities maintenance of County parks, green spaces, and landscaping surrounding public buildings. Funding for the department comes from two service contracts. One is with the Vancouver-Clark Parks and Recreation Department for the maintenance of county and regional parks. The other contract is with the Facilities Management Division of the Department of General Services for maintenance of areas around county-owned buildings, primarily near the downtown campus.

BUDGET ADJUSTMENTS:

Chelatchie RR Trail Maint. 0001-633-05

This is a request for additional funding to support the maintenance of the new Chelatchie Prairie Railroad Trail between Battle Ground Fairgrounds Park and Battle Ground Lake Park. The 2.3 mile long trail will be completed in early 2012 and maintenance will need to be provided on an ongoing basis there after.

\$13,900 0.00 \$0

0001-633-576801-16' Rotary Mowing

Parks Maintenance Restoration 0001-633-04

This is a request to restore a portion of the controllable maintenance funding for Parks & Campus Maintenance that was significantly reduced due to budget reductions during the 2009/ 2010 biennium period. 1.3 million in overall reductions to GF Parks & Campus Maintenance were implemented to help offset the estimated 12 million county wide budget short fall. Budget restoration in the amount of \$80,860 is being requested to be placed back into the GF Parks Maintenance Budget to rectify reductions that were too deep and cannot be sustained.

\$80,860 0.00 \$0

0001-633-576801-16' Rotary Mowing

Restore FTE's to GF Parks Ops. 0001-633-02

Request six positions be restored from 9 month FTE's to 12 month FTE's. General Fund forced budget reductions required us to reduce staff time to coincide with extended parks closures/limited access. General Fund Parks are to remain open year round in the future, thus we will need the staff to maintain the parks. Employees will also be instrumental in leading and monitoring parks volunteer groups throughout the year. Once a volunteer program is established, the need for other more expensive labor resources (seasonal temporary staff, offender crews, contracted labor) can be significantly reduced for a sustainable cost savings.

\$137,408 1.50 \$0

0001-633-576801-16' Rotary Mowing

BUDGET ADJUSTMENTS TOTAL: \$232,168 1.50 \$0

Public Works Administration

Department Summary

The Administration Division of the Department of Public Works is responsible for the oversight, management, and fiscal administration of the County's infrastructure related and environmental management programs. Included under this umbrella are divisions dealing with road construction and maintenance, parks acquisition, development and maintenance, sanitary sewers and waste water treatment, solid waste recycling, reuse, and disposal, clean water, and fleet and equipment management. The division, through the Department Director, provides strategic guidance to the organization and ensures compliance. The division also provides:

Department-wide customer service support
Administrative support, to include digital imaging services
Financial, accounting, and budget support
Inventory management support
Road related permit management
Technology services within
Motor pool management
Human resources support
Public information and outreach
Special project support

The division merged with Road Operations Administration in 2003 and now consists of 21 staff members located at the Franklin Street Public Service Center and the 78th Street Operations Center.

Flood Plain Insurance Program 1012-542-01

Clark County participates in the Federal Emergency Management Administration's (FEMA) National Flood Insurance Program's (NFIP) Community Rating System (CRS) for floodplain management. The CRS is a voluntary incentive program that recognizes and encourages community floodplain management activities that exceed the minimum NFIP requirements. As a result, flood insurance premium rates are discounted to reflect the reduced flood risk resulting from the community actions.

Program Summary

Financial Transactions

The Financial Transactions Program serves as an accounting tool for separating non-program fund transfers from the Road Fund. No staff or operating expenses are budgeted. The performance of this program is contingent on the relative effectiveness of the programs it supports. Hence, specific performance measures have not been established.

Railroad

Department Summary

The Lewis and Clark Railroad (aka the Chelatchie Prairie Railroad) represents a unique County-spanning asset and right-of-way. The 33-mile continuous corridor averages over 100 feet in width and is presently under a long-term operating and management agreement with the Columbia Basin Railroad Company (CBRR). Under the terms of the agreement, the CBRR is only required to pay the County a per load fee after the freight operation becomes a cost-breakeven operation (about 1,200 freight carloadings per year). The County's obligations are limited to right-of-way, bridge, and road crossing maintenance. No permanent staff are assigned.

Road Operations

Department Summary

This department is responsible for all right-of-way maintenance activities, including easements. This department includes six separate programs, including County Road Projects (CRPs); Closed/Open Drainage; Bridge Maintenance; Roadway/Shoulder Maintenance; Incidental Traffic and Safety Services; and Roadside Vegetation/Median Maintenance/Swale and Pond Maintenance/Litter Control. The programs are predominantly funded through the County Road Fund but also receive additional revenues for contract work with other local governments. Mandated National Pollution Discharge Elimination System (NPDES) activities are also reflected in the Road Operations budget.

Road Operations

Program Summary

County Road Projects

This involves completion of our capital projects; hot and cold mix overlays, walkway/sidewalk construction, etc. Hot mix overlays are completed through a local contractor while the rest of this work is done primarily with County forces (we use subcontractors or operated rental equipment where necessary or cost effective).

Purchase Gator 1012-632-07

We are looking at a safer and more efficient way to do median work along the County roadways. This will also save time when moving material and tools to work areas on detached walkways and allow the crew to work on roadside landscaping without taking up a full travel lane with a one ton truck. Cost is approximately \$15,000.

Laptops/PDAs 1012-632-01

In order to increase production, save fuel, and better utilize the Crew Chief's role as a field supervisor, it is proposed that Clark County purchase thirteen mobile laptop computers with wireless capabilities.

The laptop will have an initial purchase of approximately \$26,000 for thirteen units with docking stations. The wireless data card will be an ongoing monthly service charge of approximately \$60.00 per unit with a biennium total of \$18,720.

The total amount needed to budget this is \$44,720 for the 2011-2012 budget

Transportation Module for MMS 1012-632-02

Operations uses a maintenance management software system from Maintstar that was implemented in 2002. MMS tracks work performed and assists in work planning for annual budgets. It does not have the ability to provide detailed information on specific assets or locations. The transportation module would incorporate a detailed asset tracking system that is integrated with GIS. The enhanced work order component would improve the management of the road inventory within the right of way and greatly assist in the scheduling of the work force.

Solid Waste Fund

Program Summary

Residential Recycling Collection

This program covers expenses and revenues related to residential recycling collection contracts which serve urban unincorporated Clark County and the City of Battle Ground. Contractors provide curbside recycling collection to single-family residences and multi-family residences. The contractors bill customers directly, plus receive a payment for each ton of recyclables collected, from the revenues from sale of recyclables collected.

Solid Waste Fund

Program Summary

Waste Reduction and Disposal Program

This program includes planning, implementing and administering the County's overall regional solid waste reduction, recycling and disposal system. A key component of this program is administration of the County's long term contract with Columbia Resource Company for solid waste recycling, transfer and disposal services. Other disposal -related activities include providing for the proper management of special and problem wastes; overseeing closure, post-closure and cleanup activities at the Leichner Landfill and other former disposal sites; and overseeing and implementing certain moderate risk waste activities including the household hazardous waste program. Waste reduction and recycling activities include contract management and coordination of the single-family, multi-family and yard debris recycling collection programs, development of a rural recycling program, implementation of a commercial recycling and technical assistance program, promotion of home composting through the Master Composters program, implementation of a school-based waste reduction/recycling education program, and promotion of waste reduction/recycling opportunities through community outreach activities. Regional coordination activities include involvement in a variety of interagency local, state and inter-state cooperative planning and coordinating efforts on legal and operational issues.

Wastewater - Capital Improvements

Program Summary

Salmon Creek Wastewater TX Plant Capital

This program (Fund 4582) is responsible for planning, designing, and constructing capital improvements at the Salmon Creek Wastewater treatment plant, the 36th Avenue Pump Station and County-owned regional interceptor lines, which handle wastewater from homes and businesses in the Hazel Dell, Battle Ground, Orchards, Meadow Glade, and Hockinson areas. This program ensures that there is sufficient treatment plant capacity to treat the flow coming to it currently and in the future as the community's population grows.
